

Paulding Education FOUNDATION

School Grants 2016-2017

School Grant Description

The Paulding Education Foundation is offering another School Grant Program for the Paulding County School District. Grants will be awarded for \$1000. Any school within the district may submit a grant proposal. Only one grant will be awarded per level (Elementary, Middle, and High).

Purpose: To support innovative projects and programs that enhance the curriculum and/or enriches the learning experience for students in non-core academic areas such as fine arts, music education, health & physical education, CTAE fields, etc.

General Guidelines

Each application will be reviewed based on a rubric and must include the following characteristics:

- ✓ Focus on student achievement
- ✓ Innovative
- ✓ Appropriately aligned with School District Goals and the School Improvement Plan
- ✓ Measurable impact and results regarding student achievement
- ✓ Cost Effective

The **Foundation review committee** will review the submitted grant applications and determine if the proposal meets the established criteria.

Appropriate district staff will need to approve equipment requests. Equipment purchased through a school grant becomes the property of the Paulding County School District.

Online applications will be posted on the Paulding County School Foundation web site beginning Friday, November 11, 2016. Deadline for application submission will be Friday, December 2, 2016. All applications must be submitted electronically by the principal of the school.

Please contact Clark Maggart at cmaggart@paulding.k12.ga.us for questions. We look forward to your school's submission.
